## FROM PORTLAND TO ASTORIA

### PROJECT FOR AUTOMOBILE ROAD FROM METROPOLIS TO THE SEA IS FAST TAKING DEFINITE SHAPE.

Louis Russell, vice-president of the Portland Automobile Club, and one of the enthusiasts for good roads in the metropolis, came down to Astoria last night for the purpose of endeavoring to stir up an interest in Clatsop county for the good roads movement.

Mr. Russell is interested mainly in opening up an automobile road between Astoria and Portland, and particularly in seeing that Clatsop constructs a first-class road from Astoria to Vesper, on the Columbia county line. Already the project for a road clear from Portland to the sea is more than a mere project. It is almost a reality.

Accompanied by F. A. Fisher and F. L. Parker, Mr. Russell will go out on the road beyond Olney today on a tour of inspection. The party will go in the Fisher car. A report had reached Mr. Russell that the road running east to the county line is in fairly good shape except in the vicinity of Olney. There it is reported that the mud-holes are bad, and that stumps have been left in the middle of the thoroughfare.

As a matter of fact the county commissioners of Clatsop have been doing much in the way of making good roads and it is probable that, upon the whole, Mr. Russell will be pleased with the aspects of the roads here. There is little doubt that Clatsop will do its share in the fullest measure of making a road from Portland to the sea.

The most difficult part of the proposed route lies through Columbia county. There the population is small and the county is not very rich. Therefore it has been agreed that if Columbia county raises two-thirds of the required sum, Portland automobile men will secure the other necessary one-third for building the road.

"With a fairly good road from Portland to the sea," said Mr. Russell last night, "there would be hundreds of machines that would make the trip down through Astoria to the beach every summer. The need for such a route is imperative, and I am glad to say that it now seems only a matter of time before it is brought about. We hope that Clatsop county will do its share, and there is no doubt that it would mean much to Astoria. We could hold our summer races at the beach, and that event would bring down at least 300 machines from Portland alone."

Mr. Russell says that if the roads out Olney way are found to be in fairly good shape today, that he will make the trip down to Astoria from Portland some time next week. The trip has been made some half a dozen times, but heretofore it has always been a slow and laborious journey. The new route as proposed would not go near Rainier, but would touch at the following towns:

Portland, Linton, Holbrook, Scappoose, Warren, Yankton, Pittsburg, Mist, Fishhawk, Vesper, Jewell, Olney and Astoria.

### HARD BLOW TO DEMOCRATS

Hearst, the Leader of All the "Discontented" Classes, Makes Formal Break With Democratic Party in Letter to Gompers.

NEW YORK, July 17.—A cable gram has been received from William Randolph Hearst in reply to a message transmitted to Mr. Hearst from Samuel Gompers, stating that in view of the Democrat stand it would be an act of greatest patriotism for the Independence party to endorse the Democratic platform and urging him not to run a third ticket as it would elect Mr. Taft. Mr. Hearst's cablegram follows:

PARIS, July 13.  
 "Tell Mr. Gompers that I am not authorized to speak for the members of the Independence League, but according to my personal standards, a proper patriotism consists in laboring to establish a new party which will be consistently devoted to the interest of the citizenship and particularly to the advantage and advancement of the producing classes. I do not think the path of patriotism lies in supporting a discredited and decadent old party which has neither conscientious conviction or honest intention, or endorsing chameleon candidates who change the color of their political opinion with every varying hue of opportunism. I do not think the best benefit of laboring men lies in supporting that old party because of a sop of false promise when the performance of that party while in power did more to injure labor than all the injunctions ever issued before or since. I have lost faith in the empty professions of an unregenerate. I have lost confidence in the ability, and even in the integrity of its leaders. I do not consider it patriotism to pretend to support that which, as a citizen, I distrust and detest, and I earnestly hope the Independence party will give men an opportunity to vote for candidates that are both able and honest and for a declaration of principles that is both sound and sincere."

### PREPARE FOR WAR.

Salvador Revolutionists Prepare to Attack Honduras.

SAN SALVADOR, July 17.—An official statement which has been issued regarding the revolution of Honduras sets forth that on June 10 the Salvadorean government informed President Davila of Honduras, that preparations were being made for an invasion of that country from Salvador in favor of former President Bonilla and Salvador advised that the frontier be guarded closely. On July 22 Gen. Carrillo was worsted while proceeding to the frontier. A proclamation announcing himself as leader of the revolutionary forces and asking the people to rise was found in his possession. Gen. Carrillo was imprisoned and is still being held here.

Salvador then issued orders to all military governors to imprison all Hondureans found proceeding in the direction of the frontier. A few days later details were furnished to Honduras regarding the reported proba-

### WAS SENT POISONED ALE INTERVIEW IS GIVEN OUT

The Suspected Man's Wife Died Several Weeks Ago Under Peculiar Circumstances—Typewriters May Solve the Mystery.

PHILADELPHIA, July 17.—It is reported tonight that the police are gradually closing in on the murderer of Dr. W. H. Wilson who died on June 26 from the effects of poisoned ale, sent him by express. The man under suspicion is a printer whose wife died about eight weeks ago under peculiar circumstances. He is a typewriter operator and at the place where he is employed he had access to four or five different kinds of machines. The letters in the case are all written on a typewriter. The only missing link in the chain of circumstances is the fact that he is said to have been at work on the morning the poisoned ale was expressed.

secession of government supporters and officials at various points in Honduras, as well as information on the plan of attack which was to take place on July 5.

Honduras soon after this reported that the frontier town of Garcia had been captured by the insurgents under Daniel Lopez and after that the town of Cholucio. Lopez explained that he had the support of Salvador but President Davila has been assured from here that this is false.

### Definition of a Dachshund.

This is what the boy wrote about the dachshund:  
 "The dachshund is a dog notwithstanding appearances. He has fore legs, two in front and two behind, an they ain't on speckin' terms. I wunst made a dachshund out of a cucumber an fore mitchels, an it lookt as nacheral as life. Dachshunds is fairly intelligent considerin' thare shalp. Thare brains bein so far from thare tales, it bothers them sum to wag the lattur. I wunst noo a dachshund who wuz too impashunt to wate till he could sigal the hole length of his boddy when he wanted to wag his tale, so he maid it up with his tale that when he wanted it to wag he would shake his rite ear, an when the tale seen it shake it would wag. But as for me, gimme a bull pup with a peddgree."—Cleveland Plain Dealer.

### An Ideal Guest.

She was a most accommodating old lady, as this incident at an afternoon tea proved.  
 "Will you have sugar?" she was asked.  
 "If it's in, leave it in," she replied.  
 "and if it's out, leave it out. It doesn't make a bit of difference to me."—London Punch.

### BIG SAVING

The Housewife can save a large amount from her grocery bills by canning almost everything she uses the entire year around, and have it with that fresh taste—as from garden or orchard, and she knows that her meat is free from bacteria; free from ptomaine poisoning, as well as her vegetables and fruits.

### HOW? WHY?

Can the Economy Jar do all this?

Because the Economy uses no Rubber Ring. All other jars use rubber rings, which in time decay, become porous, leak air, and spoil and mould the contents.
